INDEPENDENT AUDITORS' REPORT

To the Honorable Frank G. Jackson, Mayor, Members of Council and the Audit Committee Division of Water Pollution Control Department of Public Utilities City of Cleveland, Ohio:

Report on the Financial Statements

We have audited the accompanying financial statements of the Division of Water Pollution Control, Department of Public Utilities, City of Cleveland, Ohio (the "Division") as of and for the year ended December 31, 2017, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to previously present fairly, in all material respects, the financial position of the Division of Water Pollution Control, Department of Public Utilities, City of Cleveland, Ohio as of December 31, 2017, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note A to the basic financial statements, the financial statements present only the Division and do not purport to, and do not present fairly the financial position of the City of Cleveland as of December 31, 2017, and the respective changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of net pension liability and pension contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Clark, Schaefer, Hackett & Co.

Cincinnati, Ohio June 28, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

GENERAL

As management of the City of Cleveland's (the City) Department of Public Utilities, Division of Water Pollution Control (the Division), we offer readers of the Division's financial statements this narrative overview and analysis of the financial activities of the Division for the year ended December 31, 2017. Please read this information in conjunction with the Division's basic financial statements and footnotes that begin on page 14.

The Division was created for the purpose of supplying sewer services to customers within the Cleveland metropolitan area. Embarking with a rudimentary system in the late 1800's, the Cleveland Sewer System developed as the City itself expanded. Until the early 1970's, the City operated the entire system and managed all aspects of sewage treatment and disposal.

In 1972, a court order created the Northeast Ohio Regional Sewer District (NEORSD) and transferred the operation of all wastewater treatment plants and interceptors to the NEORSD in December 1973.

The City retained responsibility for the sewer collector system in Cleveland. The Division serves a significant portion of the entire metropolitan area by managing the sanitary sewage and storm water drainage collection system. The sewer collection system transfers sanitary and storm sewage from its point of origin to an interceptor sewer or treatment plant for processing. The system is comprised of over 1,400 miles of sewer lines with attendant catch basins and includes 12 pump/lift stations. The Division is also responsible for the cleaning of 44,000 catch basins and for maintaining two storm detention basins.

The Division currently has 117,134 customer accounts in the City, of which 95.6% are residential and 4.4% commercial. Also, in 2017, the Division's sewers transported 1,789,836 Mcf's (thousand cubic feet) of water.

The Division acts as a custodian of billings and receipts for 18 other agencies including the NEORSD, other municipalities and Dominion East Ohio's residential service line protection plan. Accounts are billed monthly and payments collected each month are remitted to the appropriate agency by the 15th of the subsequent month.

COMPARISON OF CURRENT YEAR'S AND PRIOR YEARS' DATA

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the Division exceeded its liabilities and deferred inflows of resources (net position) by \$106,196,000 and \$99,409,000 at December 31, 2017 and 2016, respectively. Of these amounts, \$29,683,000 and \$26,011,000 are unrestricted net position at December 31, 2017 and 2016, respectively, and may be used to meet the Division's ongoing obligations to customers and creditors.
- The Division's net position increased by \$6,787,000 in 2017. The rise is primarily attributed to capital and other contributions of \$3,893,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

FINANCIAL HIGHLIGHTS (Continued)

- The Division's total debt decreased in 2017 by \$727,000 due to the payment of principal on the Divisions revenue bonds and outstanding loans.
- Investment income increased by \$434,000 or 220%, due to a combination of higher cash balances and interest rates throughout the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Division's basic financial statements. The accompanying financial statements present financial information for the City's Division of Water Pollution Control Fund, in which the City accounts for the operations of the Department of Public Utilities, Division of Water Pollution Control. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The Division is considered an enterprise fund because the operations of the Division are similar to a private sector business enterprise. Accordingly, in accounting for the activities of the Division, the economic resources measurement focus and the accrual basis of accounting is used.

The basic financial statements of the Division can be found on pages 14 - 19 of this report.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 21 - 43 of this report. Required supplementary information can be found on pages 44 - 45 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION

Provided below are the statements of net position information for the Division as of December 31, 2017 and December 31, 2016:

		2017		2016
	(A	mounts in	The	ousands)
Assets:				
Capital assets, net	\$	92,526	\$	78,498
Restricted assets		17,921		31,895
Current assets		177,622		160,050
Total Assets		288,069		270,443
Deferred outflows of resources		4,243		3,244
Net position:		72.067		70.072
Net investment in capital assets Restricted for debt service		73,967		70,873
Unrestricted		2,546 29,683		2,525 26,011
Total net position		106,196		99,409
Liabilities:				
Long-term obligations		47,540		46,246
Current liabilities		138,272		127,823
Total liabilities		185,812		174,069
Deferred inflows of resources		304		209

Current Assets: During 2017, the Division's current assets increased by \$17,572,000. Net accounts receivable increased by \$9,639,000, while unrestricted cash and cash equivalents rose by \$7,303,000. The increase in both is primarily attributed to escalating sewer rates.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION (Continued)

Capital Assets: At December 31, 2017, net capital assets amounted to \$92,526,000. This is a net increase of \$14,028,000 from the prior year, mainly attributed to an increase of \$8,747,000 in utility plant and a net increase of \$8,306,000 in construction in progress, offset by a net change in accumulated depreciation of \$5,599,000. A summary of the activity in the Division's capital assets during the year ended December 31, 2017, is as follows:

]	Balance						Balance
	Ja	anuary 1,					De	ecember 31,
		2017	A	dditions	Re	ductions		2017
	(Amounts in Thousands)							
Land	\$	297	\$		\$		\$	297
Land improvements				73				73
Utility plant		148,060		8,747				156,807
Buildings, structures and improvements		9,019		588				9,607
Furniture, fixture, equipment and vehicles		16,246		2,654		(741)		18,159
Construction in progress		21,948		17,309		(9,003)		30,254
Total		195,570		29,371		(9,744)		215,197
Less: Accumulated depreciation	_	(117,072)		(6,340)		741		(122,671)
Capital assets, net	\$	78,498	\$	23,031	\$	(9,003)	\$	92,526

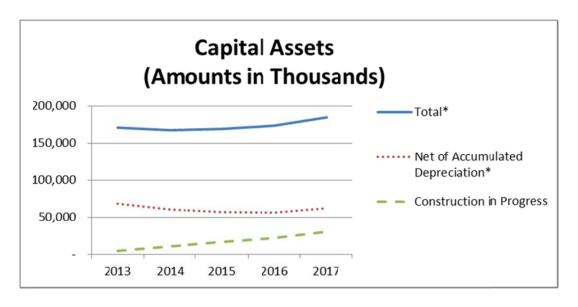

In 2017, the largest capital additions were the Emergency Sewer Repairs, Catch Basins & Manholes, and Massie Avenue Sewer.

The major capital projects/expenses for the year included:

- Sewer Installations
- Rehabilitating and Relining Sewers
- Manholes and Catch Basins
- Sewer Connections

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION (Continued)

^{*} Construction in Progress not included

Additional information on the Division's capital assets, including commitments made for future capital expenditures, can be found in Note D.

Current Liabilities: Current liabilities increased by \$10,449,000 in 2017, mainly due to an increase in amounts due for billings on behalf of others of \$9,276,000, as well as an increase in payable from restricted assets of \$860,000.

Pension Liability: During 2015, the Division adopted Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions — an Amendment of GASB Statement No. 27 and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date — An Amendment of GASB Statement No. 68 which significantly revised accounting for pension costs and liabilities. For reasons discussed below, many end users of these financial statements will gain a clearer understanding of the Division's actual financial condition by adding deferred inflows of resources related to pension and the net pension liability to the reported net position and subtracting deferred outflows of resources related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB Statement No. 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB Statement No. 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION (Continued)

Under the new standards required by GASB Statement No. 68, the net pension liability equals the Division's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the Division part of a bargained-for benefit to the employee and should accordingly be reported by the Division as a liability since they received the benefit of the exchange. However, the Division is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State Statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State Statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates and return on investments affect the balance of the net pension liability, but are outside the control of the Division. In the event that contributions, investment returns and other changes are insufficient to keep up with required pension payments, State Statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB Statement No. 68, the Division's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows of resources.

As a result of implementing GASB Statement No. 68, the Division is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION (Continued)

Long-Term Debt: At the end of 2017, the Division had total debt outstanding of \$31,934,000 associated with its issuance of revenue bonds and two OPWC construction loans. The revenue bonds are backed by the net revenues of the Division. The loans are payable from revenues generated by the Division but do not have a lien on the revenues.

The activity in the Division's debt obligations outstanding during the year ended December 31, 2017 is summarized below:

	Balance January 1, 2017	Debt Issued	Debt Retired	Balance December 31, 2017
		(Amounts i	n Thousands)	
Water Pollution Control				
Revenue Bonds, Series 2016	\$ 32,390	\$	\$ (550)	\$ 31,840
Ohio Water Development Authority Loans (OWDA)	152		(152)	-
Ohio Public Works				
Commission Loans (OPWC)	119		(25)	94
Total	\$ 32,661	\$ -	\$ (727)	\$ 31,934

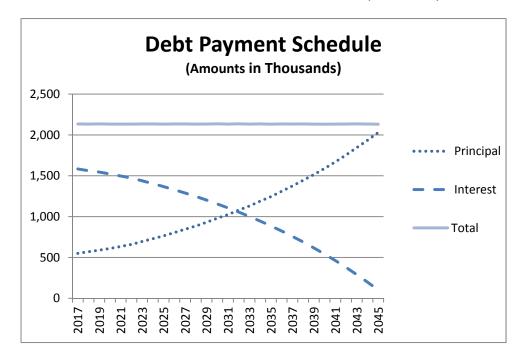

The bonds ratings for the Division's outstanding revenue bonds as of December 31, 2017, are as follows:

	Moody's	
	Investors Service	Standard & Poor's
Water Pollution Control Revenue Bonds	Aa3	A+

The ratio of net revenue available for debt service to debt service requirements (revenue bond coverage) is a useful indicator of the Division's debt position to management, customers, and creditors and investors. The Division's revenue bond coverage for 2017 was 411%.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF NET POSITION INFORMATION (Continued)

Additional information on the Division's long-term debt can be found in Note B on pages 26 - 30.

Net Position: Net position serves as a useful indicator of a government's financial position. In the case of the Division, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$106,196,000 and \$99,409,000 at December 31, 2017 and 2016, respectively.

The largest portion of the Division's net position, \$73,967,000 at December 31, 2017, reflects its investment in capital assets (e.g., land, buildings, utility plant, machinery and equipment), net of accumulated depreciation, less any related outstanding debt used to acquire those assets. The Division uses these capital assets to provide services to its customers. Consequently, these assets are not available for future spending. Although the Division's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Division's net position, \$2,546,000 at December 31, 2017, represents resources that are subject to external restrictions. These funds are set aside for the payment of revenue bonds.

The remaining balance of net position, \$29,683,000 at December 31, 2017, is unrestricted and may be used to meet the Division's ongoing obligations to customers and creditors.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION INFORMATION

During 2017, the Division's operations increased its net position by \$2,894,000. Provided below are the key elements of the Division's results of operations for the years ended December 31, 2017 and 2016:

_	2017	2016
	(Amounts in	Thousands)
Operating revenues	\$ 29,392	\$ 28,730
Operating revenues	•	ŕ
Operating expenses	27,415	24,935
Operating income (loss)	1,977	3,795
Non-operating revenue (expense):		
Investment income	631	197
Interest expense	(2)	(15)
Amortization of bond premiums and discounts	280	200
Gain (loss) on the disposal of assets		(123)
Other	8	34
Total non-operating revenue (expense), net	917	293
Income (loss) before capital and		
other contributions	2,894	4,088
Capital and other contributions	3,893	
Change in net position	\$ 6,787	\$ 4,088

Operating revenues: Operating revenues amounted to \$29,392,000 in 2017, which was an increase of \$662,000 from the previous year. The increase is primarily the result of a slight increase in Mcf's transported in 2017.

Operating expenses: During 2017, total operating expenses increased by \$2,480,000. Pension expense increased by \$1,014,000 compared to 2016.

Non-operating revenues and expenses: In 2017, non-operating revenue (expense) increased by \$624,000. The increase was primarily attributed to an investment income increase of \$434,000, a decrease on loss on disposal of assets of \$123,000, and an increase in amortization of bond premiums and discounts of \$80,000 due to having a full year of amortization on the Water Pollution Control Revenue Bonds, Series 2016 premium.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

CONDENSED STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION INFORMATION (Continued)

Capital and other contributions: In 2017, the Division was the recipient of two separate grants from the NEORSD totaling \$3,893,000. The grants are intended to help mitigate the detrimental effects of storm water runoff, as well as general water pollution control capital enhancements.

ADDITIONAL INFORMATION

This financial report is designed to provide a general overview of the Division's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Finance Director, City Hall, Room 104, 601 Lakeside Avenue, Cleveland, Ohio 44114.

NOTES TO FINANCIAL STATEMENTS For the Year Ended December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Division of Water Pollution Control (the Division) is reported as an Enterprise Fund of the City of Cleveland's Department of Public Utilities and is a part of the City of Cleveland's (the City) primary government. The Division was created for the purpose of supplying sewer services to customers within the metropolitan area. The following is a summary of the more significant accounting policies.

Reporting Model and Basis of Accounting: The accounting policies and financial reporting practices of the Division comply with accounting principles generally accepted in the United States of America applicable to governmental units.

In June of 2015, GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 was issued. This Statement is effective for fiscal periods beginning after June 15, 2015—except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of GASB Statement No. 68, which are effective for fiscal years beginning after June 15, 2016. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of GASB Statement No. 68. It also amends certain provisions of GASB Statement No. 67, Financial Reporting for Pension Plans – an Amendment of GASB Statement No. 25, and GASB Statement No. 68 for pension plans and pensions that are within their respective scopes. As required, the Division has implemented GASB Statement No. 73 as of December 31, 2017.

In June of 2015, GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB), was issued. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016. This Statement replaces GASB Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended and GASB Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in GASB Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, GASB Statement No. 43 and GASB Statement No. 50, Pension Disclosures - an Amendment of GASB Statements No. 25 and No. 27. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity and creating additional transparency. The Division has determined that GASB Statement No. 74 has no impact on its financial statements as of December 31, 2017.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January of 2016, GASB Statement No. 80, Blending Requirements for Certain Component Units- an Amendment of GASB Statement No. 14 was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016. This Statement amends the blending requirements established in paragraph 53 of GASB Statement No. 14, The Financial Reporting Entity, as amended. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units – an Amendment of GASB Statement No. 14. The Division has determined that GASB Statement No. 80 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 81, *Irrevocable Split-Interest Agreements* was issued. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period. The Division has determined that GASB Statement No. 81 has no impact on its financial statements as of December 31, 2017.

In March of 2016, GASB Statement No. 82, Pension Issues an amendment of GASB Statements No. 67, No. 68, and No. 73 was issued. The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. As required, the Division has implemented GASB Statement No. 82 as of December 31, 2017.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Division's net position is accounted for in the accompanying statements of net position and is divided into the following categories:

- Net investment in capital assets
- Amount restricted for debt service
- Remaining unrestricted amount

In addition, certain additional financial information regarding the Division is included in these footnotes.

Basis of Accounting: The Division's financial statements are prepared under the accrual basis of accounting. Under this method, revenues are recognized when earned and measurable and expenses are recognized as incurred.

Revenues: Revenues are derived primarily from sales of sewer services to residential, commercial and industrial customers based upon actual water consumption. Sewer rates are authorized by City Council and billings are made on a cyclical basis. Estimates for services between the end of the various cycles and the end of the year are recorded as unbilled revenue.

Accounts Receivables: The Division's share of the accounts receivable balance is \$13,462,000, net of allowance for doubtful accounts of \$3,093,000. The remaining net accounts receivable balance of \$88,026,000 belongs to the Northeast Ohio Regional Sewer District (NEORSD), other municipalities in the Greater Cleveland Region and to Dominion Energy Services and is offset by corresponding amounts in due for billings on behalf of others.

Statement of Cash Flows: The Division utilizes the direct method of reporting for the statement of cash flows as defined by GASB Statement No. 9, Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting. In a statement of cash flows, cash receipts and cash payments are classified according to operating, noncapital financing, capital and related financing and investment activities.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents: Cash and cash equivalents represent cash on hand and cash deposits maintained by the City Treasurer on behalf of the Division. Cash equivalents are defined as highly liquid investments with maturity of three months or less when purchased.

Investments: The Division follows the provisions of GASB Statement No. 72 *Fair Value Measurement and Application* which requires governmental entities to record their investments at fair value within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The Division's investments in money market mutual funds and the State Treasury Asset Reserve of Ohio (STAR Ohio) funds are excluded from fair value measurement requirements under GASB Statement No. 72, and instead are reported at amortized cost.

The Division has invested funds in STAR Ohio during 2017. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted GASB Statement No. 79 for the purpose of measuring the value of shares in STAR Ohio. The Division measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV share that approximates fair value.

Capital Assets and Depreciation: Capital assets are stated on the basis of historical cost or, if contributed, at their acquisition value on the date contributed. Depreciation is computed by allocating the cost of capital assets over the estimated useful lives of the assets using the straight-line method. A capital asset is defined as an item with a useful life in excess of one year and an individual cost of more than \$5,000 for furniture, fixtures, equipment and vehicles and \$10,000 for all other assets. When capital assets are disposed of, the cost and related accumulated depreciation are removed from the accounts with gains or losses on disposition being reflected in operations. The estimated useful lives are as follows:

Utility plant5 to 100 yearsLand improvements15 to 100 yearsBuilding, structures and improvements5 to 60 yearsFurniture, fixtures, equipment and vehicles3 to 60 years

The Division's policy is to capitalize interest on construction projects up to the point in time that the project is substantially completed. Capitalized interest is included in the cost of the assets and is depreciated on the straight-line basis over the estimated useful lives of such assets. The Division applies GASB guidance pertaining to capitalization of interest costs for its revenue bonds. This statement requires capitalization of interest cost of eligible borrowings, less interest earned on investment of the related bond proceeds from the date of borrowing until the assets constructed from the bond proceeds are ready for their intended use.

For 2017, total interest costs incurred amounted to \$1,582,000, of which \$1,404,000 was capitalized, net of interest income of \$176,000.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Bond Issuance Costs, Discounts, Premiums and Unamortized Losses on Debt Refundings: Bond issuance costs are expensed when incurred. Deferred bond discounts/premiums are netted against long-term debt. The discounts/premiums are amortized over the lives of the applicable bonds. Unamortized loss on debt refundings are categorized as a deferred outflow of resources and is amortized over the shorter of the defeased bond or the newly issued bond.

Deferred Outflows/Inflows of Resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Compensated Absences: The Division accrues for compensated absences such as vacation, sick leave and compensatory time using the termination payment method specified under GASB Statement No. 16, Accounting for Compensated Absences. These amounts are recorded as accrued wages and benefits in the accompanying statement of net position. The portion of the compensated absence liability that is not expected to be paid or utilized within one year is reported as a long-term liability.

Normally, all vacation time is to be taken in the year available. The Division allows employees to carryover vacation time from one year to the next. Sick days not taken may be accumulated until retirement. An employee is paid one-third of accumulated sick leave upon retirement, calculated at the three year average base salary rate, with the balance being forfeited.

2043-2045		5,810		590		6,400			
Total	\$ 3	31,934	\$	27,886	\$	59,820			

In 2015, OWDA completed an interest rate buy-down which resulted in interest rate savings on current loans. Market rate loans with interest rates higher than 4.0% saw a reduction in rates to 4.0% while rates over 3.0% on OWDA loans were reduced to 3.0%. The buy-down commenced retroactively to the January 1, 2016 payment.

The Ohio Public Works Commission Loans are being paid from the revenues derived from operations of the Division.

On April 14, 2016, the City issued \$32,390,000 Water Pollution Control Revenue Bonds, Series 2016 (Green Bonds). This was the first series of revenue bonds issued by the Division, with the bonds being issued under and secured by a newly created Master Trust Agreement. The proceeds of these bonds are being used to pay capital costs relating to the acquisition, construction and improvement of the system along with funding the debt service reserve requirement and paying the costs of issuing the bonds.

In conjunction with the issuance of the Water Pollution Control Revenue Bonds, Series 2016 the City entered into a Master Trust Agreement for the Series 2016 Bonds and any future series of revenue bonds. Under the terms of the Trust Agreement, the Bonds are special obligations payable solely from and secured by a pledge of and lien on the net revenues of the Division and the Special Funds. The Special Funds include the construction fund, the debt service fund, the debt service reserve fund, the rate stabilization fund, the contingency fund and the balance subfund.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE B - LONG-TERM OBLIGATIONS (Continued)

The indenture requires that the City will at all times prescribe, charge and collect such rates, rental and other charges for the use of the services of the system, and will restrict the operating expenses of the system in such a way that the net revenues available for debt service in each fiscal year shall be not less than the greater of i) 120% of debt service on all bonds then outstanding and payable during the fiscal year or ii) 100% of the sum of (a) debt service on all bonds then outstanding payable during that fiscal year, (b) all required deposits to the debt service reserve fund during that fiscal year, (c) all required deposits to the subordinated debt service fund and to any reserve fund securing subordinated indebtedness during the fiscal year, (d) all required deposits to the contingency fund during the fiscal year and (e) debt service payable on any other obligations payable from the balance sub fund and deposits to any reserve funds securing such other obligations. As of December 31, 2017, the Division was in compliance with the terms and requirements of the indenture.

The indenture establishes the following fund accounts for the application of revenues:

Revenue Fund: All revenues of the system are required to be deposited first into the revenue fund. Every month, amounts in the fund are first applied to the payment of operating expenses. A reasonable amount is also maintained in this fund as a working capital reserve.

Debt Service Fund: Deposits are made from the revenue fund on a monthly basis to cover succeeding principal and interest payments as they become due on the revenue bonds.

Debt Service Reserve Fund: Deposits will be made to this fund if the amount in the fund at any given time is less than the debt service reserve requirement. Amounts in the fund were deposited from the proceeds of the revenue bonds secured by the reserve fund and represent the maximum annual debt service requirement of these bonds. The City may elect not to secure any series of bonds with the reserve fund.

Contingency Fund: The balance in this fund must be maintained at a minimum of \$1,000,000. Amounts in this fund may be used for the payment of capital costs or for redeeming bonds.

Balance Subfund: Amounts in this fund may be used for any lawful purpose of the water pollution control system.

Construction Fund: Proceeds of the various series of revenue bonds are deposited into this fund to be used, along with earnings from investments of amounts held therein, for the payment of capital costs and issuance costs.

Amounts held in any fund may be invested by the City Treasurer or the trustee in permitted investments. However, the use of funds is limited by the bond indenture and accordingly, the funds are classified as restricted assets in the accompanying financial statements.

The City has pledged future water pollution control revenues to repay \$31,840,000 in Water Pollution Control Revenue Bonds issued in 2016. Proceeds from the bonds are being used to pay capital costs relating to the acquisition, construction and improvement of the system. The bonds are payable from water pollution control net revenues and are payable through 2045. Annual principal and interest payments on the bonds are expected to require less than 24% of net revenues.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE B - LONG-TERM OBLIGATIONS (Continued)

The total principal and interest remaining to be paid on the various Water Pollution Control Revenue Bonds is \$59,726,000. Principal and interest funded in the current year and total net revenues (including other available funds) were \$2,134,000 and \$8,772,000 respectively.

Water Pollution Control Loans: Under Title VI of the Clean Water Act, Congress created the State Revolving Fund (SRF). The SRF program provides federal capitalization grants to states, in addition to the 20% state matching funds, in order to capitalize state level revolving loan funds. Besides the traditional types of municipal wastewater treatment projects, Congress expanded the potential use of SRF funds to include correction of combined sewer overflows, major sewer rehabilitation and new collector sewers.

In Ohio, this SRF program is known as the Water Pollution Control Loan Fund and is jointly administered by the Ohio EPA and the Ohio Water Development Authority. Principal balances on loans increase as project costs are incurred. Interest accrues on principal amounts outstanding during the construction period and is combined with the principal balance upon completion of the project. The repayment period for each loan commences no later than the 1st of January or July following the expected completion dates of the project to which it relates utilizing an estimate of total eligible project costs as the preliminary loan amount. Construction loans and design loans are to be repaid in semi-annual payments of principal and interest over a period of twenty years and five years, respectively. The Division had no SRF loan award related to projects remaining as of December 31, 2017. One loan was paid off during 2017.

In addition, the Division had two OPWC loan awards as of December 31, 2017. The loan related projects are for sewer repair and replacement at the Hamlet and Adolpha Streets intersection and a storm water detention basin project at Kerruish Park. Both loans are interest-free and principal repayment will be made from the Division's operating revenues.

NOTE C - DEPOSITS AND INVESTMENTS

Deposits: The Division's carrying amount of deposits at December 31, 2017, totaled \$4,708,000 and the Division's bank balances were approximately \$7,333,000. The differences represent positions in pooled bank accounts and normal reconciling items. Based on the criteria described in GASB Statement No. 3, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements) and Reverse Repurchase Agreements* and GASB Statement No. 40, *Deposit and Investment Risk Disclosures – an Amendment of GASB Statement No. 3*, \$7,333,000 of the bank balances at December 31, 2017, was insured or collateralized with securities held by the City or by its agent in the City's name.

Custodial credit risk for deposits is the risk that in the event of bank failure, the Division will not be able to recover deposits or collateral for securities that are in possession of an outside party. At year end, the Division's deposits were fully insured or collateralized. All deposits are collateralized with eligible securities pledged and deposited either with the City or with a qualified trustee by the financial institution as security for repayment of all public monies deposited in the financial institution whose market value at all times is equal to at least 110% of the carrying value of the deposits being secured.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE C – DEPOSIT AND INVESTMENTS (Continued)

Investments: In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, the City reports its investments at fair value based on quoted market values, where applicable and recognized the corresponding change in the fair value of the investments recorded in investment earnings in the year in which the change occurs. The City's investment policies are governed by State Statutes and City ordinances which authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities; State Treasurer Asset Reserve Fund (STAR Ohio); commercial paper; US Government Money Market Mutual Funds; guaranteed investment contracts; manuscript debt; bonds and other State of Ohio obligations; certificates of deposit; and repurchase transactions. Such repurchase transactions must be purchased from financial institutions or registered broker/dealers. Repurchase transactions are not to exceed a period of one year and confirmation of securities pledged must be obtained.

Generally, investments are recorded and are kept at the Federal Reserve Bank in the depository institutions' separate custodial account for the City, apart from the assets of the depository institution. Ohio Statute prohibits the use of reverse repurchase agreements.

Investment securities are exposed to various risks such as interest rate, market and credit. Market values of securities fluctuate based on the magnitude of changing market conditions; significant changes in market conditions could materially affect portfolio value.

Interest rate risk: As a means of limiting its exposure to fair value losses caused by rising interest rates, the Division invests primarily in both short and long-term investments maturing within five years from the date of purchase. The intent is to avoid the need to sell securities prior to maturity. Investment maturities are disclosed in the Concentration of Credit Risk section.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Division will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The Division does not have an investment policy dealing with investment custodial credit risk beyond the requirement in the State Statute.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE C – DEPOSIT AND INVESTMENTS (Continued)

Credit Risk: The Division's investments as of December 31, 2017 include STAR Ohio and money market mutual funds. The Division maintains the highest ratings for their investments. Investments in STAR Ohio and the PNC Treasury Money Market Fund carry a rating of AAAm, which is the highest money market fund rating given by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

Concentration of Credit Risk: The Division places a limitation on the amount it may invest in any one issuer to minimize the concentration of credit risk. The Division had the following investments at December 31, 2017, which include those classified as cash and cash equivalents in the Statement of Net Position in accordance with the provisions of GASB Statement No. 9 Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Accounting, since they have a maturity of three months or less:

			Investment Matu				
	2017 2017		Less than				
Type of Investment	Value	Cost		One Year			
	(Amounts in Thousands)						
STAR Ohio	\$ 44,681	\$ 44,681	\$	44,681			
Money Market Mutual Funds	40,361	40,361		40,361			
Total Investments	85,042	85,042		85,042			
Total Deposits	4,708	4,708		4,708			
Total Deposits and Investments	\$ 89,750	\$ 89,750	\$	89,750			

These amounts are monies invested by the City Treasurer on behalf of the Division and are used in daily operations with excess monies invested daily in STAR Ohio and money market mutual funds. These investments are carried at cost which approximates fair value.

As of December 31, 2017, the investments in STAR Ohio and money market mutual funds are 52.5% and 47.5%, respectively, of the Division's total investments.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE D - CAPITAL ASSETS

Capital Asset Activity: Capital asset activity for the year ended December 31, 2017 was as follows:

	Balance						I	Balance
	January 1, 2017			Additions	R	eductions	Dec	ember 31, 2017

			_			10.057		
Capital assets, net	\$	78,498	\$	23,031	\$	(9,003)	\$	92,526

Commitments: The Division had outstanding commitments of approximately \$23,501,000 for future capital expenses at December 31, 2017. It is anticipated that these commitments will be financed from the Division's cash balances. However, at the discretion of the Division, additional long-term debt may be issued in the future to finance a portion of the costs.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN

Net Pension Liability: The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Division's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Division's obligation for this liability to annually required payments. The Division's cannot control benefit terms or the manner in which pensions are financed; however, the Division does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State Statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State Statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

Ohio Public Employees Retirement System (OPERS): Division's employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. Division's employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (800) 222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

FAS represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.0% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.0%.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

Funding Policy: The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local	
2017 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee	10.0	
2017 Actual Contribution Rates		
Employer:		
Pension	13.0	
Post-employment Health Care Benefits	1.0	
Total Employer	14.0	%
Employee	10.0	%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payrolls. The Division's contractually required contribution was \$856,000 for 2017. All required payments have been made.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: The net pension liability for OPERS was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Division's proportion of the net pension liability was based on the Division's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

		OPERS
	(Amoun	ts in Thousands)
Proportionate Share of the Net		
Pension Liability	\$	11,245
Proportion of the Net Pension		
Liability		0.047965%
Change in proportion		0.000167%
Pension Expense	\$	2,317

At December 31, 2017, the Division's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	0	PERS
	(Amounts i	in Thousands)
Deferred Outflows of Resources		
Differences in expected and		
actual economic experience	\$	15
Changes of assumptions		1,732
Net difference between projected and		
actual earnings on pension plan investments		1,640
Division's contributions subsequent to the		
measurement date		856
Total Deferred Outflows of Resources	\$	4,243
Deferred Inflows of Resources		
Differences between expected and		
actual experience	\$	76
Change in Division's proportionate share		228
Total Deferred Inflows of Resources	\$	304

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

The \$856,000 reported as deferred outflows of resources related to pension resulting from the Division's contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability in the year ending December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS				
	(Amounts in Thousand				
Year Ending December 31:					
2018	\$	1,254			
2019		1,314			
2020		566			
2021		(49)			
2022		(2)			
Total	\$	3,083			

Actuarial Assumptions – OPERS: Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	December 31, 2016 Valuation	December 31, 2015 and prior valuations
Wage Inflation	3.25%	3.75%
Future Salary Increases, including inflation	3.25% to 10.75% including wage inflation	4.25% to 10.05% including wage inflation
COLA or Ad Hoc COLA	3.25%, simple	3%, simple
	Pre 1/7/2013 retirees: 3%, simple	Pre 1/7/2013 retirees: 3%, simple
	Post 1/7/2013 retires: 3%, simple	Post 1/7/2013 retires: 3%, simple
	through 2018, then 2.15%, simple	through 2018, then 2.8%, simple
Investment Rate of Return	7.5%	8%
Actuarial Cost Method	Individual Entry Age	Individual Entry Age
Mortality Tables	RP-2014	RP-2000

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

Mortality rates are based on the RP-2014 Healthy Annuitant Mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2016, OPERS managed investments in four investment portfolios: the Defined Benefit portfolio, the 401(h) Health Care Trust portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The 401(h) Health Care Trust portfolio was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. The Defined Benefit portfolio historically included the assets of the Member-Directed retiree medical accounts funded through the Voluntary Employees' Beneficiary Association (VEBA) Trust. However, the VEBA Trust was closed as of June 30, 2016 and the net position transferred to the 115 Health Care Trust portfolio on July 1, 2016. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 8.3% for 2016.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE E – DEFINED BENEFIT PENSION PLAN (Continued)

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2016 and the long-term expected real rates of return:

		Weighted Average Long-Term Expected			
Asset Class	Target Allocation	Real Rate of Return (Arithmetic)			
Fixed Income	23.00 %	2.75 %			
Domestic Equities	20.70	6.34			
Real Estate	10.00	4.75			
Private Equity	10.00	8.97			
International Equities	18.30	7.95			
Other investments	18.00	4.92			
Total	100.00 %	5.66 %			

Discount Rate: The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Division's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following table presents the Division's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.5%, as well as what the Division's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.5%) or one-percentage-point higher (8.5%) than the current rate:

			(Current		
		Decrease 6.50%		ount Rate 7.50%	e 1% Increase 8.50%	
	-	(A 1	mounts	s in Thousar	ıds)	
Division's proportionate share						
of the net pension liability	\$	17,421	\$	11,245	\$	6,097

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE F – OTHER POSTEMPLOYMENT BENEFITS

Plan Description - Ohio Public Employees Retirement System: All full-time employees, other than non-administrative full-time police officers and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the Traditional Pension and the Combined plans. This trust is also used to fund health care for Member-Directed Plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, Member-Directed Plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45, *Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions.* Please see the Plan Statement in the OPERS 2016 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the OPERS Board of Trustees (OPERS Board) in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy - Ohio Public Employees Retirement System: The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2017, State and Local employers contributed at a rate of 14.0% of covered payroll. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE F – OTHER POSTEMPLOYMENT BENEFITS (Continued)

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0% during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0.0% for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited for Member-Directed Plan participants for 2017 was 4.0%.

The Division's actual contributions to OPERS to fund postemployment benefits were \$66,000 in 2017, \$130,000 in 2016 and \$126,000 in 2015. The required payments due in 2017, 2016 and 2015 have been made.

NOTE G - CONTINGENT LIABILITIES AND RISK MANAGEMENT

Contingent Liabilities: Various claims are pending against the City involving the Division for personal injuries, property damage and other matters. The City is responsible for the suits. The City's management is of the opinion that ultimate settlement of such claims will not result in a material adverse effect on the Division's financial position, results of operations or cash flows.

Risk Management: The Division is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Division is generally self-insured. No material losses, including incurred but not reported losses, occurred in 2017.

The City provides the choice of two separate health insurance plans to its employees. The operating funds are charged a monthly rate per employee by type of coverage. The City participates in the State of Ohio workers' compensation retrospective rating program.

In accordance with GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines and damage awards. Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors.

The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses, regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Claims liability for the Division is immaterial.

NOTES TO FINANCIAL STATEMENTS (Continued) For the Year Ended December 31, 2017

NOTE H - RELATED PARTY TRANSACTIONS

Revenues and Accounts Receivable: The Division provides sewer services to the City, including its various departments and divisions. Standard consumption rates are charged, except for the Division of Fire, public buildings and certain other facilities owned by the City, which by ordinance are provided free sewer services. Billing, collection and various other services for the Division are performed by the Division of Water for a fee. This fee is primarily based on the number of billings made on behalf of the Division during the year at the same rates as charged to other users of the billing system. These fees were approximately \$2,645,000 in 2017.

Operating Expenses: The Division is provided various intra-city services. Charges are based on actual use or on a reasonable pro-rata basis. The more significant costs for the year ended December 31, 2017, was as follows:

	(Amounts in Thousands)
Electricity purchases	\$ 219
Radio communication	57
City Administration	945
Motor Vehicle Maintenance	278
Utilities Administration and Utilities Fiscal Control	1,093

NOTE I - CUYAHOGA COUNTY REAL PROPERTY TAXES

The Division is required by ordinance to keep records of the estimated property taxes which would be payable to Cuyahoga County were it subject to such taxes. The estimated property taxes for the Division, based on book value of real estate at the current tax rates, would have been approximately \$23,000 for the year ended December 31, 2017.

Required Supplementary Information

Schedule of the Division's Proportionate Share of the Net Pension Liability Ohio Public Employees Retirement System Last Four Measurement Years (1), (2)

	2017	2016	2015	2014			
	(Amounts in Thousands)						
Division's Proportion of the Net Pension Liability	0.047965%	0.047798%	0.054153%	0.054153%			
Division's Proportionate Share of the Net Pension Liability (Asset)	\$ 11,245	\$ 8,979	\$ 6,511	\$ 6,375			
Division's Covered Payroll	\$ 6,367	\$ 6,092	\$ 6,783	\$ 6,138			
Division's Proportionate Share of the Net Pension Liability (Asset) as a Percentage of its Covered Payroll	176.61%	147.39%	95.99%	103.86%			
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	77.25%	81.08%	86.45%	86.36%			

- (1) Information presented for each year was determined as of the Division's measurement date, which is the prior year end.
- (2) Information prior to 2013 was not available. The Division will continue to present information for years available until a full ten-year trend is compiled.

Notes to Schedule:

Change in assumptions. In 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended December 31, 2015. Significant changes included a reduction of the discount rate from 8.0% to 7.5%, a reduction in the wage inflation rate from 3.75% to 3.25% and transition from the RP-2000 mortality tables to the RP-2014 mortality tables.
